Enrollment complete

People with spam filters should adjust their settings so they can receive emails from the "city.okazaki.jp" domain. Please contact your mobile phone provider for details. We also ask that you adjust your settings to allow emails with URL links in the body.

What is the flood warning system?

A flood warning system has been installed at 13 locations around the city and provides 2 stages of warnings. Alarms will provide notification when flood gauges on roads or flood gauges near rivers detect a danger of flooding.

Flood meter locations

- ① Idaminami
- ② Iga
- ③ Atago-bashi
- ④ Motonomi-cho
- ⑤ Inaguma (East)
- ⑥ Inaguma (West)
- ⑦ Kugosaki
- ⑧ Mutsunahon
- ⑨ Mutsuna-shin / Eguchi
- ⑩ Wakamatsu-teramae
- ⑪ Wakamatsu-kawamukai
- ⑫ Tatsumi-oiri
- ⑬ Miai Ubagafutokoro

※Flood gauge locations can also be viewed in the "Information about the service" section when enrolling.

Flood gauge

River and road flood information is also provided on the City of Okazaki homepage (Mobile phone version also available).
